HORIZONS HORIZONS HORIZONS

The graduating class of 1982 would like to dedicate our yearbook to our Principal, Mr. Canuel, in appreciation for all his hard work in the Berkley Schools, for the past twenty-five years. He has put a lot of time and patience into our school system, and we would like to thank him in this way.

HORIZONS HORIZONS

To the Class of 1982:

What a wonderful and exciting time to be alive!

Your three years at Berkley Junior High School have been successful ones. With this educational preparation, we hope that you can take advantage of the many opportunities offered to young people.

Most of you will lead ordinary, unheralded lives. Yet each of you have a sphere of influence and yours efforts will contribute to the future of our society.

Your future will be determined by the goals that you set and by the fields that you choose for your lives. I sincerely hope that you continue your education in order to lead fuller lives. You also will not find the time to do all that you'd like to do, but try to budget your time so that you can make some effort to help others live.

Congratulations!

I wish you success in the future.

Sincerely,

Edward G. Canuel
Principal of Berkley Schools

To the Class of 1982:

This year has been a particularly difficult one for our school. With budget cuts made in response to Proposition 2½, you saw some educational programs dropped or cut back. In addition, the entire extra-curricular activity schedule was eliminated. Increased class loads did not allow teachers the time to sponsor the yearbook or the Gong Show.

In spite of all these limitations, the programs we did offer you were of high quality. Using these as a basis, your high school years should be productive ones.

Good luck and may you experience success in all your endeavors.

Mrs. Deal

We would like to thank Mrs. Deal for treating all the cuts and bruises that we acquired over the years. For the past fifteen years she has treated childrens "boo-boo's". We are all sorry to see her go. We hope she is successful in her future endeavors.

HISTORY etc.

CLASS HISTORY

We, the Graduating Class of 1982 began our years in Berkley Schools as the first Kindergarten (taught by Mrs. Zucchi) and held in the basement of the Berkley Public Library. We moved to the Elementary School for first grade. Through the years we worked from one end of the elementary to the other end. Then the day came when we moved to the Junior High School.

In September of 1979, we began our first day at the Junior High. We were shy, nervous sixth graders. The eighth grade didn't help by calling us "puny" (as the year progressed we grew out of it). With all new faces we met, we found a familiar one in Miss Hadley. She had taught us science at the Elementary School. It was her first year teaching sixth grade science at the Junior High. Being in sixth grade we could now play in after school intramurals. We were also able to perform in the Gong Show instead of sitting in the audience. We all had a good time playing and performing. The year came to an end, but never fear for we would be back next year.

We came back, but this year we knew what to expect. But, as we got to school we encountered a new face: Mrs. Giannakoulis. She took a seventh grade homeroom and taught English and Reading. Sports came again and some of us joined. Also, the third Annual Gong Show was held. During this time, we had a minor disaster. The oil tank at the elementary developed a leak and the oil ran into the well. Therefore, the cafeteria couldn't cook our lunches. As a result we had to bring our lunches for a month. The year went by and as all do, it came to an end. When we left we were happy and willing to come back. For we would now be eighth graders!!

We came back the next year knowing what would be expected of us. We also knew it would be our last. Knowing what was expected of us we did our share of picking on the sixth graders. We can't ever remember being that small. They'll grow. We did.

Shortly after school started we met a very special person: Dave McGillvray. With Mr. Lussier's help and cooperation we helped Dave raise money for the Jimmy Fund. We raised \$2,103.25. Our school raised the most money in New England. This is definitely an accomplishment we all can be proud of. Mr. Lussier deserves a special thanks for all his help to make this project work.

We had another fund raiser selling book covers for the eighth grade fund. Mr. Drummond donated the covers! Thanks Mr. Drummond!

We have had many different activities to raise money for the eighth grade fund. We had a Pancake Breakfast, dances, and a Christmas fair. The money raised will help pay for our trip to New York in April. The person who is responsible for all this is Mrs. Ghilarducci. We want to express our gratitude many times over.

A special thanks should go to Ms. Medeiros for giving us her time to be in charge of our yearbook when she really had no time to give. She made it possible for us to have a yearbook when no one else could, due to heavy schedules. Thank you. We will never forget it!

We would also like to express our thanks to each and every one of our teachers. For three years you have helped us become mature young men and women. We are now ready for high school and you have helped us reach this point. We will never forget the good times we've had with you at the Junior High.

To all up coming eighth graders we hope you have as much fun as we did in the eighth grade. Good Luck!!
